

The Agha Khan University

1. Qadianiat and Bahaiat and Zikree Sects are not Islamic and so is also Agha Khaniat. They all are out side of Islam and Muslim Religion. Agha Khanees are perhaps nerer to Hindu religion than Islam. Look at Agha Khanees Kalima which is known as "Haqiqi Kalima". It is "Ash hadu al laa ilaaha il lal laahu wa ash hadu anna Muhammadur rasoo lul laalhi wa ash hadu anna ameerul mu'mi neen"
 Translation:- I give evidence that besides ALLAH there is no other worthy of worship. I also give evidence that surely Muhammad is the messenger of ALLAH. I give further evidence that 'ALI is ALLAH's Ameerul Mumineen"
2. Agha Khanees claim that "Islam" is – "Yaa 'Ali Madad".
3. Agha Khanees call Imam-e-Hazir as –" Mowla 'Ali. Imam-e-Hazir is also called "Peer Shah".
4. Shah Kareem is Imam-e-Hazir. He is "ASAAS" and the status of ASAAS is higher than a Prophet. Prophets convey the "Message of ALLAH" to mankind whereas Imam who is also ASAAS guides mankind from his ownself (instead of ALLAH).
5. Agha Khanees belief is:- That what first NOOR was with Prophet Muhammad Mustafa the same NOOR is in SHAH KAREEM Imam-e-Hazir in these present times.
6. Agha Khanees says that when Prophets stop coming then the system of Imaamat begins.
7. Obedience of Imam is equal to obedience of ALLAH.
8. During "Mairaj", Prophet Muhammad had a vision of ALLAH. The same vision you experience when you see Imam-e-Hazir SHAH KAREEM, the spiritual leader of Agha Khanees.
9. Whatever MOMINS were in the past and whatever Momins that are living today and whatever MOMINS that there will be in future, all these Momins worship SHAH PEER i.e., Imam and they will continue to so in future as well.
10. After Hazrat Ali's arrival the process of Prophethood was stopped. After Ali's time no other prophet will come. To Agha Khanees it means that arrival of Imam is the arrival of NOOR of ALLAH. Recognition of Imam is the recognition of ALLAH. Worship of Imam is the worship of ALLAH. Praise of Imam is the praise of ALLAH. Spiritual surrender to Imam is the surrender to ALLAH. Obedience of Imam is the obedience of ALLAH.
11. Agha Khanees say that Imam-e-Hazir is equivalent to "Talking Qur'aan". So the followers should obey his pronouncements and follow them.
12. Agha Khanees says that whatever knowledge is, it is all in the Book called "GINAAN". Of course Qur'aan came fourteen hundred yeas ago but it was for the people of Arabia whereas "GINAAN" is just seven hundred years old. They say that people should obey "GINAAN" and follow it too.
13. Agha Khanees claim that present day's Qur'aan is not the same as it was originally revealed. They claim that Qur'aan has been modified during the times of Khalifa Usman. Earlier "AYATS" are transferred to later pages and the later "AYATS" are transferred to the earlier pages of Qur'aan. They say – we have all the evidence to prove this statement.
14. Agha Khanees claim Qur'aan had 40 Paras but today it has only 30 Paras. The remaining 10 Paras are in the heart of their Imam. These 10 Paras are called ATHER VED. (ATHER VED is a Hindu Religious scripture). They say that the voice of Imam itself is equivalent to those 10 Paras.

15. In Agha Khanees Jamat Khanas, Agha Khanees pray with Agha Khan's portrait placed on the ground right in front of them .
16. People of such belief are Agha Khanees. It is these people who are set to raise a new educational system under Agha Khan University. President Gen Musharraf has already issued an Ordinance No 114 of Year 2002 to this effect.
17. Under the authority of this Ordinance a new University called the Agha Khan University will have its own Examination Board. This Board will have its own system of teaching, its own staff, its own syllabus and it will be all independent in all its functioning. Its activities will not be challengeable in any Court of Law. This university will gradually have its campuses all over Pakistan.
18. U.S.A under its U.S. Aid Program has already provided 450 lac U.S dollars to Mr. Shams Qasim Lakha of Agha Khan Hospital Karachi, U.S. Govt is backing this scheme. Christina Rocca of American State Department visited Northern Areas of Pakistan in this connection.
19. For entrance, the Registration Fee , in this Agha Khan University would be Rs. 3800/- while the Examination fee would be Rs. 4000/- Both beyond the capacity of low income group. (Pakistani University Examination Board's fee is mere Rs. 300 only).
20. Agha Khan University will have its own syllabus and method of teaching and will have its own examination system - and no interference from any political party or MNA would be allowed. Soon 'O' level and 'A' level examinations will be conducted under Agha Khan University Board.
21. In Agha Khan University the Islamiyat will be taught as that of Zaitoona University of Tunis (TUNISIA). It will be highly secular in nature as it is approved by U.S.A. Compulsory fasting during the month of Ramazan and use of scarf for ladies would be gradually eliminated. Young men with beards and young girls with scarf will not get jobs with Multinationals. Thus next generations of Pakistanis would become slave to Western culture. It will be a Burger generation.
22. What will be the result. This type of education will certainly be of high value to Western market. It will produce such re-modelled and recycled brains which will serve the Western Cultures and secularism. It will place religion as an individual private matter. This type of education will be against the national interest of "Islamic Republic of Pakistan" whose constitution says that no law or system will be allowed to prevail in Pakistan which will be against "Qur'aan and Sunnah". It is feared that over a period of time Pakistan's Islamic texture will be affected. This education will undermine Qur'aanic teachings, its dignity and honour. In fact it will prove to be contradicting, even insulting it. This education will mentally enslave Muslim intelligensia and Ummah. A very dangerous game is in the offing which will under mine Islamic thought, culture and standing. A new remodelled Muslim will be produced from this part of the world. Certainly though this University Agha Khaniat will also spread not only in Northern Areas of Pakistan but well into the cities and villages of Pakistan. Pakistan will be remodelled. Graduates from this University only will find admittance to other higher Western Educational Institutions.
23. While good quality Education in Pakistan is a must. The effort is praise worthy. But it must be made to serve its purpose within and under the Constitution of Islamic Republic of Pakistan. Muslims are known to be vigilant to any external danger to its Geographical Frontiers but are known to be generally sleepy to let go by any brewing danger to its Islamic Frontiers. So please watch out.
